Make Your Voice Heard on Social Security

The U.S. Senate has the opportunity to stop the House-passed budget that would cut the Social Security Administration's funding by \$1.7 billion this year. If you're concerned about the effects of these proposed budget cuts to Social Security, you can add your voice to the debate. NSCLC is part of the Strengthen Social Security coalition which is made up of over 270 national and state organizations representing over 50 million Americans.
